

Fresno Teachers Association/CTA/NEA

October 15, 2015

Last night at the FUSD School Board meeting our last proposal ([attached](#)) was presented to the school Board trustees in a closed board session. We are not privy to the details of this closed session but we have been told a discussion of our proposal did take place. We are working with the district's bargaining team to schedule the next FTA\FUSD bargaining session. At this session we anticipate hearing the districts position on our last proposal, until then, it is critically important for all members to sign the petition and to support the FTA bargaining team and proposal. As soon as we have a date and time scheduled we will send out another connect with that information.
